

UKG Dimensions Migration Assessment

Key benefits

- **Independent expert review** objectively identifies readiness and opportunities
- **Minimize organizational risk** with a detailed, comprehensive functional and technical solution
- **Develop a roadmap strategy** that aligns UKG Dimensions with your business objectives

Are you interested in migrating to UKG Dimensions?

Our UKG Dimensions™ migration offering is carefully designed to help your organization assess your overall readiness and best prepare for your migration.

The chances are good that your organization's current on-premises or cloud-based UKG™ (Ultimate Kronos Group) solution has changed since you first installed it. As a result, it may be difficult to audit, review, and validate your solution in an objective way to ensure a smooth, quick migration to UKG Dimensions. This can also be the perfect time to identify ways to improve your workforce practices, so that bad habits don't carry over into the new solution.

Our services team will outline how UKG Dimensions will differ from your current UKG Workforce Central suite solution and illustrate what may be changed, from new functionality that could potentially eliminate existing processes and the need for custom integrations to how the product roadmap could impact your solution. The review will also identify areas where technical and business process improvements can be made.

Our services team then presents the opportunities for improvement in an executive dashboard summary and a comprehensive report that details these findings as well as actionable recommendations for migrating to UKG Dimensions. Part checklist and part roadmap, the report helps you create an environment consisting of technical, business, and functional best practices to achieve the most successful migration possible. If you're interested in migrating your UKG Workforce Central solution to the UKG Dimensions solution, and want to make sure you have a comprehensive review before making the move, we have the answer.

UKG Dimensions Migration tasks

The UKG Dimensions Migration Assessment evaluates your entire solution to help ensure that your migration plan is as thorough — and as successful — as possible. Our team helps you address the following key areas and more:

Inventory

- Change-control process

Don't go it alone

We want your company to realize the many benefits of UKG Dimensions, and UKG Services can help get you there. Using the experience we've gained helping thousands of organizations (like yours) migrate to new platforms as well as to the cloud, we'll partner with you to make sure you have a clear picture about what's involved in migrating to UKG Dimensions, along with a plan that maps an efficient and effective migration.

Minimize guesswork, maximize results

When it comes to something as significant — and as important — as migrating your workforce management solution, don't take the risk of going it alone. Our services team can help you assess where you stand today and develop a roadmap and recommendations for a migration plan. And we can manage the entire process so your IT staff doesn't have to.
