

Data Extraction Tool

Harness the power of UKG Dimensions data across enterprise systems

UKG Dimensions™ from UKG™ (Ultimate Kronos Group) is designed to help your organization manage the workforce of the future — today. This powerful application suite leverages the latest technologies to streamline workforce management practices, provide actionable intelligence, and empower and engage your most valuable resource: your people. UKG Dimensions can deliver even greater value when it operates as part of a seamless digital ecosystem that spans all areas of your organization. By harnessing the power of UKG Dimensions data across your enterprise systems, you can unlock new insights and better understand how the workforce affects overall business performance.

The Data Extraction Tool, implemented by UKG Services, enables you to share UKG Dimensions data with other key business systems, such as customer relationship management, enterprise data warehouse, enterprise resource planning, point of sale, finance, and other solutions. By bringing together workforce and other operational data, the Data Extraction Tool allows you to gain broader enterprise visibility and key strategic insights for better business outcomes.

Ready, set, connect!

As the foundation of the UKG Dimensions solution, the intelligent UKG D5 Platform lets you work in a modern cloud that leverages new technologies and works seamlessly with your existing systems. The UKG D5 Platform incorporates the Dell Boomi integration platform as a service (IPaaS) to support all integration processes between cloud platforms, software-as-a-service applications, and on-premise systems. The Data Extraction Tool is available out of the box with Dell Boomi integration technologies.

UKG Services can rapidly implement the Data Extraction Tool as a seamless component of your solution set, thereby making UKG Dimensions data available to specified applications across the enterprise. Authorized end-users can schedule and execute integration processes directly from the UKG Dimensions interface. And because data processing, summarization, and preparation all occur within your secure UKG D5 Platform tenant, you can rest assured that your workforce data is always well-protected.

Key benefits

Access critical data from UKG Dimensions starting on day one

Unlock new insights by bringing together workforce and other operational data

Schedule exports on demand from within the familiar UKG Dimensions interface

Augment data exports with custom views and insightful summarizations

Process data responsibly through your secure tenant in the UKG D5 Platform

Data Extraction Tool

Harness the power of UKG Dimensions data across enterprise systems

Once UKG Services implements the Data Extraction Tool, specified enterprise systems immediately benefit from the following UKG Dimensions views:

Timecard

Employee

Schedule
