Efficiency

Kronos is ideal for human resources and business office functions involving large groups of employees. We are able to process payroll, approve timesheets, approve time-off requests, and submit all employee-related information all in one spot.

Tiffany A. | *Healthcare*

The daily schedules are easy to use, printable, and show which individual is working at a given time, for how long, what their tasks are, who they are and increases productivity and organization.

Reporting

Kronos Workforce Ready has enabled me to not only process payroll more efficiently and accurately but it has also given us the ability to generate reports and do ad-hoc reporting in a more efficient manner with fewer manipulation and only having to pull data from one source versus many sources previously.

Jason G. | Finance Administrator

I am happy with the ease of running reports within the payroll platform. We are happy that plugging in a time will generate what employee's accruals were at that point in time.

Deborah B | Benefits Manager

Kronos Payroll Services has automated our payroll withholding reporting so that we no longer have to manually report for federal and state.

Finance Administrator

Ease of Use

Our employees especially like the Kronos Workforce app because it allows them to view their schedule, request time off, view hours, and request a swap-shift with other employees.

Joseph C. | Retail

Kronos definitely beats out the competition in terms of user-friendly features and simple "it works" functionality.

We tried using several other payroll suites including Paychex and found they were lacking in a number of areas especially in terms of user interface. Our employees literally groan when they remember using these older systems, they absolutely love Kronos in comparison.

Compliance

Due to the organizational structure and business requirements, the employees are expected to login/logout at a specific time and take breaks at a particular time. The system helped maintain compliance with the policies and showing inconsistencies.

HR Manager | 1000-5000 Employees

Kronos Workforce Ready is used by the entire organization across 6 companies and 3300 employees. Kronos Workforce Ready is the HRIS and payroll system. The system has helped us with compliance and report generation.

Overall, the system has a good number of fields to initiate job requisitions, capture new hire personal data to meet the requirements if the company was audited.
