

East Fork Fire Protection District

Before and After Kronos

“As with all disasters, public safety agencies see a dramatic uptick in response and community involvement, and the Covid-19 outbreak is no different. Configuration between Workforce TeleStaff and Workforce Ready is now much more convenient to take on.”

Troy Valenzuela
Battalion Chief

Payroll processing time reduced

Payroll was manually entered into a master document and took **up to 3 days** to process.

HCM and Payroll systems are now automated, efficient, and take **66% less time** to process.

Scheduling simplified and automated

Schedules were created by hand on paper, **took weeks** to analyze and approve, and bidding was almost impossible to manage.

Schedules are **automatically updated** and distributed equitably. Employees can bid on position, shift, vacation, and overtime.
